

SUPPLEMENTARY INFORMATION:**Background and Purpose**

On November 5, 1996, the Coast Guard published an interim rule in the Federal Register (61 FR 57268). This rulemaking was initiated to implement certain provisions of the Commercial Fishing Industry Vessel Safety Act of 1988, Pub. L. 100-424. This rule established requirements for U.S. documented or state numbered uninspected fishing, fish processing, and fish tender vessels. The comment period was limited to 45 days by the interim rule. The Coast Guard has received many requests to extend the comment period to allow for additional time to review the provisions of this rule. The purpose of this document is to extend the comment period an additional 60 days and delay the effective date of the interim rule and to make the following correction:

Need for Correction

As published, the interim rule contains an omission which may prove to be misleading and needs correction.

Correction of Publication

Accordingly, the publication on November 5, 1996, of the interim rule [CGD 96-046] which was the subject of FR Doc. 96-28406, is corrected as follows:

1. On page 57274, in table 28.120(a) entitled "Survival Craft For Documented Vessels," in the eighth entry for area, "Inside Boundary Line, cold waters; or Lakes, bays, sounds, cold waters; or rivers, cold waters", for vessels 10.97 meters (36 feet) or more in length, in the third column, the words "See note 2" should be added after the words "Inflatable buoyant apparatus."

Dated: December 20, 1996.

J.C. Card,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Marine Safety and Environmental Protection.
